FIRST CHOICE®

8-8-2

With 0.I% Fe - 0.05% Mn - 1% Zn

BIO-DEGRADABLE

ACTIVATOR • BUFFERING AGENT • SPREADER

FOR AGRICULTURAL SPRAYS

GUARANTEED ANALYSIS 8-8-2

Total Nitrogen (N)	8.00%
8% Ammoniacal Nitrogen	
Available Phosphoric Acid (P_2O_5)	8.00%
Soluble Potash (K_2O)	2.00%
Iron (Fe)	0.10%
Manganese (Mn)	0.05%
Zinc (Zn)	1.00%

Derived from mono ammonium phosphate, potassium chloride, ferrous sulfate, manganese sulfate and zinc sulfate.

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS:
25.1% Nonyl Phenoxy Polyethoxy Ethanol, Polydlmethyl-siloxane and Mono Ammonium phosphate.

ADJUVANT

PRINCIPAL FUNCTIONING AGENTS:
Nonyl phenoxy polyethoxy ethanol, Polydimethyl-siloxane, and Mono ammonium phosphate 25.1%
CONSTITUENTS INEFFECTIVE AS SPRAY ADJUVANT: 74.9%
TOTAL 100.0%

CA Reg. No. 11656-50098-AA EPA EST. NO. 11656-CA-002

KEEP OUT OF REACH OF CHILDREN

CAUTION

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water. If so advised by a physician or Poison Control Center, induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.
IF IN EYES: Immediately flush eyes with plenty of water and get medical attention.
IF ON SKIN: Immediately wash skin with plenty of soap and water while removing contaminated clothing and shoes. If irritation persists, seek medical attention.
IF INHALED: Remove victim to fresh air.

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

Information regarding the contents and levels of metals in this product is available on the internet at: http://www.aapfco.org/metals.htm

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. May cause irritation of eyes, nose, throat and skin. Avoid contact with eyes, skin and clothing. Avoid breathing spray mist. Wash thoroughly after handling. Remove contaminated clothing and wash thoroughly before reuse. Do not contaminate feed and foodstuffs.
Do not apply this product in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons.

ENVIRONMENTAL HAZARDS

Do not contaminate water when disposing of equipment washwaters.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.
STORAGE: Store in dry location away from children, animals, foods, feeds and seeds. Handle in accordance with Precautionary Statements. In the event of spillage or leakage, soak up the material with absorbent clay, sand, sawdust or other absorbent material. Scrape up and dispose in accordance with Product Disposal.
PRODUCT DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
CONTAINER DISPOSAL: Triple rinse (or equivalent), then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Do not store below 32˚ Fahrenheit.

CONDITIONS OF SALE AND WARRANTY

Seller warrants that the product conforms to its chemical description and is reasonably fit for purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use, storage or handling of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. These risks include, but are not limited to, damage to plants, crops and animals to which the material is applied, damage caused by drift to other plants or crops, and personal injury.

GENERAL INFORMATION

FIRST CHOICE 8-8-2 is a nutrient solution combined with a complete anionic/nonionic surfactant blend. FIRST CHOICE 8-8-2 supplies major and minor nutrients and a complete surfactant system with emulsion stabilizer. It increases the efficiency of various agricultural chemicals. It insures quick wetting and uniform coverage, and aids the performance of translocated and systemic agricultural chemicals. In areas where the water is alkaline, this product acidifies and buffers, tending to reduce hydrolysis of and increase the life expectancy of pesticides such as organic phosphates. FIRST CHOICE 8-8-2 is designed to increase the absorption and utilization of micronutrients and is formulated from raw materials which will not tend to burn foliage.

DIRECTIONS FOR USE

SHAKE WELL BEFORE USING

APPLICATION DIRECTIONS: For row or field crops, apply in at least 20 gals. water per acre by ground and 10 gals. by aircraft. Apply to fruit trees in at least 100 gals. water/acre with conventional sprayers, 45 - 100 gals. with concentrate sprayers, and 10 gals. by aircraft. Agitate product in container first and during addition to water.
USE PRECAUTIONS: For best results, use this material in early stages of plant growth. Do not apply to fruit where spotting may occur or on crops not on this label. FIRST CHOICE 8-8-2 is compatible with most crop protection chemicals. Do not use equipment contaminated with weed killers.
CAUTION: Tank mixtures of FIRST CHOICE 8-8-2 with copper-based products can be phytotoxic due to increased solubility of copper. Test applications to part of the crop are advisable to assess potential phytotoxicity before full scale, commercial applications. The following crops are known to be sensitive to foliar applications of copper: broccoli, cabbage, celery, cucurbits, grapes, lettuce, nectarines, peaches, pears, plums, prunes, spinach, and strawberries.
PESTICIDE ACIDULATION FOR TERRESTRIAL USE SITES: Use 1-2 quarts product per 100 gallons of water to reduce the pH of alkaline waters used for pesticide applications.
FOLIAR NUTRITIONAL SPRAYS - USE THE DOSES RECOMMENDED BELOW:
Apples, apricots, cherries, figs, nectarines, peaches, pears, plums, prunes, nut crops and olives: Apply 2 qts. per acre in delayed dormant and continue with several applications after blooming period. Use with CAUTION on smooth skinned fruits.
Alfalfa, barley, beans, corn, milo and rice: Apply 1-2 qts. per acre in seedling stage to early growth.
Citrus: Apply 2 qts. per acre before or during spring flush of growth. Multiple applications are desirable. Apply 1-2 qts. per acre on non-bearing trees anytime before or during a flush of growth.
Carrots, celery and cole crops: Apply 1-2 qts. per acre 2-3 times in early growth.
Cotton: Apply 1-2 qts. per acre 1-3 times before full bloom.
Bushberries, grapes, and strawberries: Apply 1-2 qts. per acre during and after bloom.
Lettuce: Apply 1-2 qts. per acre in 1-4 applications beginning at thinning time.
Cucumbers, melons, and squash: Apply 1-2 qts. per acre.
Sugarbeets: Apply 1-2 qts. per acre in 1-2 applications from 6-leaf to 3 months old.
Eggplants, peppers, pineapples, potatoes, tomatoes and sweet potatoes: Apply 1-2 qts. per acre in 1-2 applications.
Turf and ornamentals: Apply 1-2 qts. per acre at monthly intervals.
