

M.S.O.

Modified Vegetable Oil Concentrate

READ ENTIRE CONTAINER LABEL BEFORE USING PRODUCT

PRECAUTIONS

READ THESE ENTIRE DIRECTIONS AND WARRANTY OF SALE, USE STRICTLY IN ACCORDANCE WITH LABEL CAUTIONS, WARNINGS AND DIRECTIONS.

KEEP OUT OF REACH OF CHILDREN WARNING

FIRST AID

If Swallowed: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to a person. Do not give anything by mouth to an unconscious person.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible. Call a poison control center or doctor for further treatment advice.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

PRINCIPAL FUNCTIONING AGENTS (BY WT):

Methylated Soybean Oil, Alkylphenol Ethoxylate100%

All ingredients are exempt from tolerance requirements under 40 CFR 180.

WA Reg. No. 11656-02001 CA Reg. No. 11656-50112-AA

WARNING: Causes eye irritation. Do not get in eyes. Wear protective eyewear when handling. Avoid breathing vapors. Harmful if swallowed. Avoid contact with skin. When handling wear coveralls over short sleeved shirt, short pants, socks, chemical resistant shoes and chemical resistant gloves.

NOTE: Read and follow all label directions and cautions on all products used.

Emergency information: Call CHEMTREC (800) 424-9300.

PEEL BACK HERE AND RESEAL

GENERAL INFORMATION

FIRST CHOICE® M.S.O. is a unique blend of highly refined and modified vegetable oil and superior nonionic surfactants. **FIRST CHOICE® M.S.O.'s** unique chemistry allows for superior wetting and absorption of those pesticides or products which labels recommend the addition of a spray adjuvant to improve coverage.

The addition of **FIRST CHOICE® M.S.O.** to a spray tank solution will improve a spray application by physically modifying the deposition and wetting characteristics of the spray solution, the result being a more uniform spray deposit.

This product cannot be used for aquatic applications in the State of Washington.

The use of **FIRST CHOICE® M.S.O.** can increase pesticidal activity where the following factors occur, but is not limited to:

1. When used in areas of the country with low relative humidity and high temperatures.
2. When target species are larger than label recommendations at time of application.

DIRECTIONS FOR USE

Use **FIRST CHOICE® M.S.O.** in spray mixture at a rate of 1 1/2 - 2 pints per acre. Higher rates may be required on hard-to-control weeds or weeds which are under stress. **NOTE:** *The application rates on this label are based on pesticide labels which recommend the use of a methylated vegetable oil or nonionic surfactant. Rates of this product may be increased or decreased. For optimum results, follow pesticide labeling for proper recommendations. The addition of a spray adjuvant to some pesticide or pesticide tank mix combinations may cause phototoxicity to the foliage and/or fruit of susceptible crops. Before using **FIRST CHOICE® M.S.O.** where a nonionic surfactant may not be recommended the user or applicator advisor must have experience with the combination or must have conducted a phototoxicity trial.*

MIXING

Prior to pesticide application, clean mixing and application equipment according to pesticide label directions.

To minimize foaming, fill spray tank 2/3 or 3/4 full of water. If foaming is anticipated, the addition of an antifoaming agent should be added before pesticides, nutrients, or **FIRST CHOICE® M.S.O.** Add pesticides and/or fertilizers as directed by label or in the following sequence:

1. Micronutrients and fertilizers,
2. Dry flowables and dispersible granules,
3. Flowables,
4. Water soluble pesticides,
5. Emulsifiable concentrates.

Continue agitation and add **FIRST CHOICE® M.S.O.** After the addition of **FIRST CHOICE® M.S.O.**, reduce agitation and allow to mix for 1 to 2 minutes. Continue filling tank while under minimal agitation. **NOTE:** *For optimum results, spray mixes containing **FIRST CHOICE® M.S.O.** should be applied within 36 hours.*

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

STORAGE: For optimum storage stability, store at temperatures between 40°F (5°C) and 90°F (32°C). Avoid contact with eyes and skin. Do not store near oxidizing agents.

PRODUCT DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary land fill.

CONDITIONS OF SALE AND WARRANTY: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use, storage or handling of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. These risks include, but are not limited to, damage to plants, crops and animals to which the material is applied, failure to control pests, damage caused by drift to other plants or crops, and personal injury.
