

For Use In WA

SOLAR™

Modified Vegetable Oil and Organosilicone Surfactant

READ ENTIRE CONTAINER LABEL BEFORE USING THIS PRODUCT

PRINCIPAL FUNCTIONING AGENTS:
 Modified soybean oil, polyalkyleneoxide, modified polydimethylsiloxane and alkylphenol ethoxylate ... 99.0%

CONSTITUENTS INEFFECTIVE AS
 SPRAY ADJUVANT 1.0%

Total 100.0%

All ingredients are exempt from tolerance requirements under 40 CFR , 180, 1001. California Registration Number: 11656-50100-AA

Note: The applications on this label are based on pesticide labels which recommend the use of a nonionic surfactant. Rates of this product may be increased or decreased for optimum results, follow pesticide labeling for proper recommendations. Before using First Choice Solar where a nonionic surfactant may not be recommended the user of applicator advisor must have experience with the combination or must have conducted a phytotoxicity trial.

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

May cause minimal eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

STATEMENT OF PRACTICAL TREATMENT

If Ingested: DO NOT INDUCE VOMITING. Drink 2 glasses of water or milk. Get medical attention.
If On Skin: Remove contaminated clothing and wash with soap and water. Get medical attention if irritation persists.
If In Eyes: Flush with plenty of water for at least 15 minutes. Get medical attention if irritation persists.

MIXING

Prior to pesticide application, clean mixing and application equipment according to pesticide label directions. To minimize foaming fill spray tank 2/3 or 3/4 full of water and begin agitation. If foaming is anticipated the addition of an antifoaming agent should be added before pesticides, nutrients, or FIRST CHOICE SOLAR. Add pesticides and/or fertilizers as directed by label or in the following sequence: A. Micronutrients and fertilizers. B. Dry flowables and dispersible granules. C. Flowables. D. Water soluble pesticides. E. Emulsifiable concentrates. Continue agitation and add FIRST CHOICE SOLAR, when completed, reduce agitation and allow to mix for 1 to 2 minutes. While under minimal agitation, continue filling tank and allow to mix for 10-15 minutes prior to application.

Note: For optimum results, spray mixes containing FIRST CHOICE SOLAR should be applied within 36 hours.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Do not store near heat or open flame. Store in original container. Pesticide: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Container: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration.

GENERAL INFORMATION

First Choice Solar is a unique blend of highly refined and modified vegetable oil and organosilicone surfactant. First Choice Solar's unique chemistry allows for enhanced wetting and absorption of those pesticides or products which labels recommend the addition of a spray adjuvant to improve performance. The addition of First Choice Solar to a spray tank solution will improve a spray application by physically modifying the wetting and spreading characteristics, the result being a more uniform spray deposit. Observe initial application to ensure thorough coverage without excessive runoff of the spray.

DIRECTIONS FOR USE

The use of First Choice Solar can increase pesticidal activity where the following factors occur, but is not limited to:

1. When used in areas of the country with low relative humidity and high temperatures.
2. When used with low water volume rates of less than 15 gpa.
3. When target species are larger than label recommendations at time of application.

APPLICATION	RATE PER 100 GALLONS
Aerial:	6-16 pints
Ground:	3-5 pints

NOTE: NOT FOR USE WITH AQUATIC APPLICATIONS

CONDITIONS OF SALE AND WARRANTY

1. Western Farm Service, Inc. (WFSI) warrants that this material conforms to the chemical description on the label and is reasonably fit for use as directed hereon. WFSI neither makes, nor authorizes any agent or representative to make, any other warranty of FITNESS or of MERCHANTABILITY, guarantee, or representation, express or implied, concerning this material.
2. Critical and unforeseeable factors beyond WFSI's control prevent it from eliminating all risks in connection with the use of this material. Such risks included, but are not limited to, damage to plants and crops to which the material is applied, lack of complete control, and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for the uses stated hereon and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability resulting from handling, storage and use of this material (except those assumed by WFSI in paragraph 1 above). WFSI shall not be liable for incidental or consequential damages.
