GENERAL INFORMATION

FIRST CHOICE 20-9-9 is a high quality granular fertilizer developed for ornamental growers, landscapers and turf professionals. This special formulation includes micronutrients and provides outstanding performance as both a topdress and preplant fertilizer. The nitrogen in First Choice 20-9-9 releases primarily through microbial activity and is not significantly affected by extreme temperatures, resulting in a safe and predictable release.

FOR HOME & GARDEN AND COMMERCIAL USE

APPLICATION PRECAUTIONS

The application rates listed are only guidelines used in developing a fertilizer program. The rates may not apply to your local growing conditions. It is the growers responsibility to determine the appropriate application rates. Trial this product before use under your local growing conditions, application methods and desired rates. Adjust irrigation volume and frequency to maintain appropriate soluble salt levels. Iron and other plant nutrients can cause staining of cement. Avoid mounding of fertilizer against base of plants. Store in a clean, cool, dry place.

TOPDRESS APPLICATION RATES (grams)

Container	Low	Medium	High	Measuring Units (level)
1 gallon	4	5	6	1 tsp. = 5 grams
2 gallon	9	14	17	1 tbsp. = 15 grams
5 gallon	24	36	48	¼ cup = 55 grams
7 gallon	35	52	70	⅓ cup = 73 grams
15 gallon	48	72	97	½ cup = 110 grams
				1 cup = 214 grams
