

# HUMIC 65-G

**READ ENTIRE CONTAINER LABEL BEFORE USING THIS PRODUCT**

### **GUARANTEED ANALYSIS**

HUMIC ACIDS.....65%

Derived from: Lignite, and non-plant food ingredients.

Also contains 35% linosulfonate and inert materials.

For use primarily as a soil amendment and to aid in nutrient uptake.

Bulk density: 47 lbs./cu. ft.

### **DIRECTIONS FOR USE**

**SOIL APPLIED:** Apply 10-60 lbs. of FIRST CHOICE HUMIC 65-G per acre. (Preferably in the fall or early spring for humic acid release.)

Do not exceed 10 lbs. of FIRST CHOICE HUMIC-65-G per acre in a band application if the sodium level exceeds 4% of the CEC.

FIRST CHOICE HUMIC 65-G can be blended with most dry granular fertilizers. Avoid applying during high humidity conditions. Do not apply with high urea blends (above 40% urea).

**POTTING SOILS:** Mix 2-4 lbs. of FIRST CHOICE HUMIC 65-G per cubic yard of potting mix.

### **CONDITIONS OF SALE**

1. Seller warrants that this material conforms to the chemical description on the label and is reasonably fit for use as directed herein. Seller neither makes nor authorizes any agent or representative to make, any other warranty of FITNESS or MERCHANTABILITY, guarantee or representation, express or implied, concerning this material.

2. Critical and unforeseeable factors beyond seller's control prevent it from eliminating all risks in connection with the use of chemicals. Such risks include, but are not limited to damage to plants and crops to which the material is applied, lack of complete control, and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for the uses stated herein, and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability (except those assumed by seller under 1. above) resulting from handling, storage and use of the material.
