GENERAL INFORMATION

FIRST CHOICE Foliar Plus 12-4-12 is a water-soluble foliar nutritional fertilizer of macro and micronutrients. It is designed for foliar application and may be applied alone or in tank mixes containing pesticides. However, when use of an unfamiliar mix is made, a compatibility test is always recommended. Foliar fertilization is a supplement to a regular fertilizer program and will not supply the total nutrients required by a crop. FIRST CHOICE Foliar Plus 12-4-12 is recommended as foliar nutrition to be applied to crops where disorders due to insufficient nutrients are anticipated.

DIRECTIONS FOR USE

Dissolve the desired amount of FIRST CHOICE 12-4-12 Foliar Plus in water before adding to the spray tank. With proper agitation, FIRST CHOICE 12-4-12 can be added into the spray tank with agitation running. Do not store solution mixed with pesticide! Spray immediately

after mixing. Add FIRST CHOICE 12-4-12 to the spray tank before adding pesticides.
