**GENERAL PRODUCT INFORMATION**

**First Choice Foundation** is a proven starter or pop up fertilizer. When applied at planting time to annual crops, or early season perennial crops by means of shank or drip irrigation, **First Choice Foundation** increases nutrient use efficiency and stimulates early development of the root system.

**First Choice Foundation** is a non-hazardous liquid fertilizer product.

**First Choice Foundation** can be applied to the soil in combination with most neutral fertilizers.

Avoid using **First Choice Foundation** in combination acid and low P.H. fertilizer products. **CAUTION** should be used as with any fertilizer when mixing for application.

**DIRECTIONS FOR USE**

**For annual crops:**

Apply **First Choice Foundation** at the rate of 1 gallon per acre in combination with 10-34-0 at planting time with the seed or in fertilizer planter band.

**For perennial and deciduous:**

**First Choice Foundation** may be applied at 1 gallon per acre, in combination with 10-34-0, Urea, KTS and Ammonium Thiosulfate most effectively through shank machines or drip irrigation early in the season.

**CONDITIONS OF SALE AND WARRANTY**

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use, storage or handling of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. These risks include, but are not limited to, damage to plants, crops and animals to which the material is applied, failure to control pests, damage caused by drift to other plants or crops, and personal injury.
