

# MICRO MIX 6-2-0 MICRONUTRIENT COMPLEX

**READ ENTIRE CONTAINER LABEL BEFORE USING THIS PRODUCT**

**GUARANTEED ANALYSIS:**

Total Nitrogen (N) .....	6.00%
6% Urea Nitrogen	
Available Phosphate (P <sub>2</sub> O <sub>5</sub> ) .....	2.00%
Magnesium (Mg).....	1.00%
Sulfur (S) .....	1.50%
Boron (B) .....	0.20%
Copper (Cu).....	0.10%
Iron (Fe).....	1.00%
Manganese (Mn) .....	0.50%
Zinc (Zn) .....	1.50%
Derived from urea, phosphoric acid, copper sulfate, iron sulfate, magnesium sulfate, manganese sulfate, zinc sulfate and sodium borate complexed with lingo-sulfonate.	

NET WEIGHT: 10.3 lbs./gallon @68°F

**GENERAL INFORMATION**

First Choice Micro Mix is designed for foliar application to growing crops, alone or with pesticides. May be applied directly to soil, alone or with pesticides or herbicides. May be used in drip irrigation systems. It is compatible with most water-dispersed pesticides. May be applied via conventional (high-volume) or aircraft sprayers. Is recommended for all field, row, vegetable, fruit tree, vine and ornamental and turf crops.

**SHAKE, STIR OR SWIRL CONTENTS BEFORE USING**

**APPLICATION DIRECTIONS CONTINUED**

**CONVENTIONAL (DILUTE) SPRAY APPLICATIONS:** While the entire required quantity may be applied at one time, split applications will improve overall efficiency of uptake and will be more effective. Apply the required amount of this product in enough water for good coverage. Complete wetting of the foliage is not required.

**GROUND CONCENTRATE APPLICATIONS:** Use up to 1/2 gallon of this product in a minimum of 25 gallons of water per acre per application. Repeat in 10-14 days if greater amounts of this product are required.

**AIR APPLICATIONS:** Normal aerial application is 1 quart of this product per 5 gallons of water per acre per application. Maximum concentration of 1 quart per gallon of spray may be used.

**LIQUID FERTILIZER APPLICATIONS:** This product may be applied with all nitrogen solutions. Thoroughly mix this product with the nitrogen solution before applying. Avoid application with soil applied phosphate fertilizers.

**DRIP IRRIGATION:** The required amount of this product should be applied over the growing season of the crop via multiple applications 1-2 weeks apart. Avoid co-application with phosphate-containing fertilizer solutions.

**APPLICATION DIRECTIONS—GENERAL**

**WITH PESTICIDES OR HERBICIDES:** Always add this product to spray tank before adding the herbicide or pesticide. The alkaline water usually encountered in the Western United States will require 1-2 quarts per 100 gallons of spray water.

**AVOID** foliar applications of this product when plants are under moisture stress. Immediate post-irrigation or post-rainfall applications give best foliar uptake of micronutrients. Avoid periods of high temperatures or low humidity.

**ACTIVELY** growing plants with young leaves absorb micronutrients most effectively.

**COMPATIBILITY:** This product is compatible with most pesticides except basic products such as lime, lime-sulfur, basic metal sulfates, metal oxides, etc. A compatibility test is recommended if the desired combination has not been used in the past.

**APPLICATION DIRECTIONS—SPECIFIC**

**\*ALL CROPS**

Micronutrient Maintenance .....	2-4 qts/acre
Deficiency, Non-Visible .....	3-6 qts/acre
Severe Deficiency .....	1-3 gals/acre

•The lower rates are for field, row and vegetable crops. The higher rates are for fruit, tree, vine, ornamental and turf crops. When rates of over 2 quarts are called for, split or multiple applications of 2 quarts or less each are preferred. Applications should be separated by a minimum of 10-14 days.

**CONDITIONS OF SALE AND WARRANTY**

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use, storage or handling of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. These risks include, but are not limited to, damage to plants, crops and animals to which the material is applied, damage caused by drift to other plants or crops, and personal injury.

**KEEP OUT OF REACH OF CHILDREN  
CAUTION**

**ATTENTION:** First Choice Micro Mix is recommended for all field, row, vegetable, fruit, tree, vine, ornamental and turf crops at a maximum rate of 3 gals/acre/application.

**WARNING:** This fertilizing material contains Boron (B). Use on any crops other than those recommended may result in serious injury to the crop(s).

**DO NOT OVER APPLY!!**
