

# MULTI-CHE 5N-9Zn

## 5-0-0+9Zn

### FOR THE CORRECTION OF ZINC DEFICIENCY

**READ ENTIRE LABEL BEFORE USING THIS PRODUCT**

**GUARANTEED ANALYSIS:**

Total Nitrogen (N) ..... 5.0%  
5.0% Ammoniacal Nitrogen  
Zinc (Zn)..... 9.0%

Derived from ammonium hydroxide, citric acid and Zinc Ethylenediaminetetraacetate (Zinc EDTA). Contains 1 pound of Chelated Zinc per gallon

NET WEIGHT: 11.0 lbs/gallon

**ALL TREE AND VINE CROPS:** Apply up to 6 quarts per acre of **FIRST CHOICE Multi-Che 5N-9Zn** through sprinkler irrigation and not more than 2 quarts per acre through drip irrigation. When application is made through shank equipment, do not exceed 2 quarts per acre.

**FOLIAR APPLICATION RECOMMENDATIONS**

**ALL CROPS:** Generally a rate of 1 to 2 quarts per acre of **FIRST CHOICE Multi-Che 5N-9Zn** in a minimum of 20 gallons by ground and no more than 1 quart in 5 gallons by air.

**CAUTION**  
**KEEP OUT OF REACH OF CHILDREN**

**State of Washington**  
Information received by the Washington State Department of Agriculture regarding the components in this product is available on the internet at <http://www.wa.gov/agr/>.

**GENERAL INFORMATION**

**FIRST CHOICE Multi-Che 5N-9Zn** is a versatile solution that can be combined with pH neutral solution fertilizers and applied at planting time, side-dressed or by means of irrigation. The Product is designed primarily for soil application, however, it can be used in foliar applications as well.

**FIRST CHOICE Multi-Che 5N-9Zn** provides an alternative for use in correcting Zinc deficiencies where low to moderate soil pH's exist and the use of less expensive sulfate forms are not feasible because of incompatibility with commonly used liquid fertilizers.

Consult with your Western Farm Service Crop Advisor for proper recommendations.

**SOIL APPLICATION RECOMMENDATIONS**

**ALL FIELD AND ROW CROPS:** Apply 1 to 8 quarts of **FIRST CHOICE Multi-Che 5N-9Zn** per acre in liquid fertilizer blends. The actual rate will depend on crop sensitivity, moisture, placement and plant growth stage.

**CONDITIONS OF SALE**

1. Western Farm Service, Inc. (WFSI) warrants that this material conforms to the chemical description on the label and is reasonably fit for use as directed hereon. WFSI neither makes, nor authorizes any agent or representative to make, any other warranty of FITNESS or of MERCHANTABILITY, guarantee, or representation, express or implied, concerning this material.
2. Critical and unforeseeable factors beyond WFSI's control prevent it from eliminating all risks in connection with the use of this material. Such risks include, but are not limited to, damage to plants and crops to which the material is applied, lack of complete control, and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for the uses stated hereon and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability resulting from handling, storage and use of this material (except those assumed by WFSI in paragraph 1 above). WFSI shall not be liable for incidental or consequential damages.
