GENERAL INFORMATION

FIRST CHOICE CropMaker is a fertilizer which contains extracts of *Ascophyllum nodosum* Kelp for use on all agronomic crops including but not limited to the following: Alfalfa, corn, cotton, most vegetables and cucurbits, stone fruit, pome fruits, nut crops, citrus, olives, avocado, nut crops, vine crops, field crops, row crops, sod and turf, nursery and greenhouse plants and field grown ornamentals.

Apply First Choice CropMaker as a foliar spray or in irrigation water. First Choice CropMaker is intended to be used as a complement to a well-balanced crop fertility program and to assist in the translocation of plant nutrients.

DIRECTIONS FOR USE

SHAKE WELL BEFORE USING

FOLIAR APPLICATION - Apply 4-32 oz. per acre by ground or air with foliar fertilizers. Repeat as needed. Use the appropriate volume of water for the application method and the crop.

PREPLANT and SIDEDRESS - Apply 2-8 oz. per acre in a least 25 gallons of liquid fertilizer.

WATER RUN - Apply 4 - 32 oz. per acre in irrigation water.

CONDITIONS OF SALE AND WARRANTY

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use, storage or handling of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. These risks include, but are not limited to, damage to plants, crops and animals to which the material is applied, failure to control pests.
