

WATERMAXX

Agricultural Soil Penetrant
Blended Non-Ionic Soil Wetting Agent

READ ENTIRE CONTAINER LABEL BEFORE USING THIS PRODUCT

PRINCIPAL FUNCTIONING AGENT:
Active Ingredient
20.0% Non-ionic Polyol

NONPLANT FOOD INGREDIENT

GENERAL INFORMATION

FIRST CHOICE WaterMaxx improves the infiltration and penetration of applied irrigation water in agricultural crops and turf. FIRST CHOICE WaterMaxx may be applied through any type of irrigation system (except earthen ditches) or by conventional spray rig equipment.

USE DIRECTIONS

AGRICULTURAL CROPS

Injection Through Irrigation Systems
Inject FIRST CHOICE WaterMaxx at 1-4 quarts per acre through any type of irrigation system (except earthen ditches).

Conventional Sprayers
Apply FIRST CHOICE WaterMaxx at 1-4 quarts per treated acre. Irrigation or rainfall should follow application.

Transplant Purposes
Add FIRST CHOICE WaterMaxx at 1 quart per 500 gallons of transplant water.

USE RECOMMENDATIONS

Germination: For optimum germination apply at 1-4 quarts/acre, can be band sprayed directly over seed row.

Fumigation: For optimum fumigation apply 1-4 quarts/acre as a pre-irrigation for maximum movement and control.

Maximizing Water Usage: For optimum usage of irrigation water and rainfall, apply 1-4 quarts/acre per month during crop growing season. Apply additionally if desired for improved penetration of rainfall.

TANK MIXING

FIRST CHOICE WaterMaxx is compatible with most chemicals. Prior to application, always perform a jar-test to evaluate the tank mix for compatibility.

CONDITIONS OF SALE AND WARRANTY

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use, storage or handling of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. These risks include, but are not limited to, damage to plants, crops and animals to which the material is applied, failure to control pests, damage caused by drift to other plants or crops, and personal injury.
