

# ORGANIC WATER CONDITIONER

**READ ENTIRE LABEL BEFORE USING THIS PRODUCT**

PRINCIPAL FUNCTIONING AGENT:  
Citric Acid ..... 34.0%

**CAUTION**  
KEEP OUT OF REACH OF CHILDREN

### GENERAL INFORMATION

**LEAF LIFE Organic Water Conditioner** is a solution designed to help condition problem irrigation waters on organic crops. It may be introduced to irrigation waters by means of injection or metered flow. **LEAF LIFE Organic Water Conditioner** is a low pH product, therefore caution should be used when selecting storage and application equipment. A pH meter, pH strips, or water analysis are common means necessary to determine final pH of irrigation water. Excessive use rates of **LEAF LIFE Organic Water Conditioner** may damage equipment.

### APPLICATION RECOMMENDATIONS

Application rates and expected results of **LEAF LIFE Organic Water Conditioner** are contingent on several factors. Because waters from different sources vary greatly in quality and pH, it is not appropriate to list a standard rate of application. In order to achieve the maximum benefit, it is in the user's best interest to first obtain a sample of his/her irrigation water and have it analyzed. Once the analysis results are reviewed, a benchmark can be established as a starting point to determine the role of applications. It may be necessary to perform a water titration by adding **LEAF LIFE Organic Water Conditioner** to a sample of irrigation water to determine the rate of injection based on the desired final pH. Please consult your Western Farm Service Crop Advisor on matters concerning this product.

### WARNING INFORMATION

Do not allow the final irrigation water pH to drop below 6.0. Effective results may be obtained over a range of pH values and is dependant on overall irrigation water quality.

### CONDITIONS OF SALE AND WARRANTY

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use, storage, or handling of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. These risks include, but are not limited to, damage to plants, crops, and animals to which the material is applied, damage caused by drift to other plants or crops, and other personal injury.
